## DELIVERY/COLLECTION INFORMATION

The delivery of products is a vital part of any purchase, therefore we look to ensure that all goods are despatched and received in excellent condition.

Please advise us of any access or delivery problems to the required delivery address. Some of vehicles are large commercial trucks with wide trailers that are sometimes unable to access smaller residential roads.

Once the goods are delivered it is very important that you check the products for damages at the time of delivery. Whilst every effort is made to ensure the goods are received in good condition we cannot be held liable for any goods that are reported damaged once the delivery has been signed for.

The ability to collect within 24 hours of placing an order is not guaranteed, and should not be assumed. You should always check that your order is ready for collection before you travel.
